

COMPREHENSIVE GOALS

Instructional Goal

Provide a program of instruction guided by assessment of student progress, focused professional development, well-defined achievement goals, and a progressive curriculum that meets the academic and career needs of all students.

Safety and Facilities Goal

Provide a safe and drug free school environment in well-maintained facilities through the implementation of facility and safety planning and training.

Staff

Attract, train, and retain highly qualified professionals for all positions in order to provide high quality classroom instruction and instructional support.

Technology

Provide and maintain effective, integrated technology systems that support classroom instruction, operations, communication and training for students, staff, and parents.

Communications

Utilize effective communication practices to promote parents active involvement in their child's education, build partnerships with business and government entities, and to keep the community informed of the activities of the district.

Resource Management

District financial and human resources are effectively and efficiently allocated to maximize the educational benefits and opportunities for students.
