

For the responders to work you need to:

1. Computer Programs Installed

- *Renaissance* uses programs **Accel Test** and **2Know**
- Serial Number: G151-0540-A759-R002-2I (last letter is capital i)
- School Name: Anthony Independent School District
- Default password: admin

- *Qwizdom* uses programs **Qwizdom Connect** and **Action Point**, this uses the serial number that is on the cd

2. Receiver

3. Classes / Students enrolled:

4. Some type of assessment *Qwizdom can use PowerPoint

5. Batteries for responders (turned on)

Qwizdom X Mac

- If you have a Mac you must run this program on the Windows side of your Mac, to do this you run Parallels
- Go to magnifier /search in upper-right hand corner type parallels then click on the icon
- Click on start button in upper right-hand corner
- It will say you are in coherence mode (unless you have checked the box do not show msg)

Windows

- Click Qwizdom Connect icon
- Under Participants tab, click icon of a person (Participant wizard)
- Check New Participant List, create a name (like 1st period), then click next
- You put in student names and remote number, which is four-digit student ID
- After all the names are added click finish
- Create a PowerPoint, some slides with questions
- Click Add-Ins at the top (there is a tab) while in PowerPoint
- Choose the type of question and fill in the boxes, giving the answer, points, time, etc
- Plug in receiver
- When ready to present click ActionPoint Icon (double circled-arrows)
- Answer Presentation setup questions, which include choosing class (the rest of the options stay as default), then click OK

- When session ID screen comes on students can turn on their responders (clickers) by holding down the menu button, and log in with their student ID numbers
- To send is the double arrows under the menu button
- When everyone is logged in click on SmartBoard Icon and presentation starts, questions will show on their responders
- To get results go to Qwizdom connect, click on the tab called “results,” click on class for results

Renaissance uses two main programs Accel Test and 2Know, but can function with only Accel Test **MAC**

- Open Accel Test, when you open Accel Test you need to set up a school year
- If Accel Test has already been opened the first screen will ask for the password, which the default is “admin”
- Click Classes (at the top)
- Click Add Class; and give it a name
- Click Add Student: first/last, and Anthony ISD four digit ID
- Click Enroll Students: if done correctly the students should show on the right-hand side
- Click New Assignment: now create a title for the quiz, select subject area (like Science) be sure to select responder under “This assignment will be:”
- New “Add Items” window is open, here you select how many of each question; such as, short answer, T/F, Multiple Choice, etc..Then click add
- New window type questions, choices, and correct answer on the bottom, now click “done”
- Click Gradebook, then “add,” and select Accel Test, finally select the assignment
- Click Responder (at the top), click start student/teacher paced lesson
- Click verbally or from existing document, select quiz, then click “next” a few times...finished
